Malandy's is a bush hut whose name is the combination of Malcolm and Andrew. Two people who had a lot to do with its construction. Malandy's is on the bank of an isolated dam 12 kms from the house. It is a very pleasant place where the birds and wildlife can be seen coming in to water.

Dirt floor, wood hot water system, small wood stove, hot showers, small generator that runs the lights and two spotlights that shine over the dam. Wire beds and mattresses, old style charcoal fridge, cooking utensils, outside wood bush BBQ, long drop toilet.

Rough bush accommodation...Only for those hardy folk used to this type of camping.

Camping

Camping on any dam other than Malandy's .
